

## MIKE MASON

Senior Vice President, Lilly Connected Care and Insulin Global Business Unit, Eli Lilly and Company

Mike Mason was named Senior Vice President, Lilly Connected Care and Insulin Global Business Unit in July 2018. Mike is responsible for the global development and commercialization of Eli Lilly's insulin franchise and diabetes digital, connected health business.

Mike joined Eli Lilly and Company in 1989. During his 30-year career with the company, he has held various roles in Research and Development, Engineering, Manufacturing, Supply Chain, Strategy, Business Development, Market Research and Corporate Leadership. His extensive experience covers a variety of therapeutic areas such as neuroscience, osteoporosis, oncology, urology and endocrinology.

Mike is a previous chair of St. Vincent Indianapolis Hospital Board of Directors. He previously served on the Board of Directors of Canada's Research-Based Pharmaceutical Companies (R&D) and Scarborough General Hospital's foundation in the greater Toronto area.

Outside of work, Mike's passion is his family and supporting youth development. Mike and his wife have four children. He is a long-term youth basketball and baseball coach. He currently serves as a mentor to low income teenagers.
